RE: Water Right Permits 43-7269; -7327; -7328

Dear Steve,

I am planning to conduct water right examinations in the vicinity of the above referenced permit beginning June 19, 2001. An examination is needed to verify your water use in order to issue a water right license.

I have included a copy of this permit with this letter. Please be advised that the system needs to be operating under normal conditions in order to conduct the examination. Please contact this office at your earliest convenience. Thank you for your time.

Sincerely,

I called to set up field examination for above permits and Steve Davis said he is unable to set any appointments for any thing other than adjudication claims, as BLM is now going through a Director's Report process for their claims. He said he has told Jim Stanton the same thing. Alrighty then, I will just put these back in the "To Do" drawer.
