Re: Application for Transfer No. 73784 (Orchard Ranch)

Dear Norm:

This email letter confirms a six-month extension to provide the requested information for the application. The same results that were outlined in my April 12, 2010 letter to you would be expected without your timely written reply by November 12, 2010. Meanwhile, please let me know if I can provide any assistance.

Sincerely,

Steve Lester
Water Rights Supervisor

Re: Application for Transfer No. 73834 (Orchard Ranch)

Dear Steve:

This is in response to your letter of April 12, 2010 regarding the above-referenced transfer application.

APPROVED c MORE TIME

My client has indicated that they are amending the project based on new conditions. This is related, in substantial part, to the details set forth in my email to you on March 26, 2010, regarding application for permit no. 63-32703, for which we requested an extension of one-hundred and eighty (180) days to provide additional information and to make the necessary amendments. The permit application and transfer application relate to one another.

Accordingly, we request that an extension of one-hundred and eighty (180) days likewise be granted for providing the requested information and making any necessary amendments to application for transfer no. 73834. As with the application for permit, we reserve the right to provide the requested information and to make the necessary amendments to the transfer application prior to the end of the extension period.

Thank you for your attention to this matter.

Sincerely,

Norman M. Semanko
