PROOF ACKNOWLEDGEMENT LETTER

RE: Permit Nos. 91-7215 & 91-7216

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use forms submitted for the above referenced permits. The next step in the process of developing water rights is for the department to conduct a field examination to determine and confirm the use being made of the water.

During my review of your proof statements and your water appropriation permits listed above, I noticed that you stated rates of diversion greater than the maximum diversion rates allowed under these permits. On your proof statements you stated that your total rates of diversion are 0.07 (cfs), however, these permits are limited to maximum diversion rates of 0.04 cfs. You must limit your water use to the amounts permitted. I have enclosed copies of your proof statements and copies of these permits for your reference. If needed, you may apply for another water right to cover additional water use. Application forms are available from any department office, or at the department's website at: www.idwr.idaho.gov

Please be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov

If you have any questions concerning the field examination, please contact the Northern Regional Office of the department in Coeur d'Alene, Idaho at (208) 762-2800.

Sincerely,

Darla Block
Technical Records Specialist
