I Leon Atkinson owner of 4-plex.
filed application for permit on 8/10/2009

At the time I was under the impression
it was permit. I don't remember receiving
the letter to send back about completing the
project, so I didn't, and because of that
it lapsed. I am waiting for a kidney
transplant and everything is so crazy. Testing, 9 hours
a day of dialysis, and constant trips to the
doctor & clinic.

I would like to reinstate the permit.
The 4-plex was built in 1975. The well was
drilled in 1974. I have supplied the well log,
the easement, and tax summary for evidence
of completion.
