RE: Telephone Conversation w/ New Right Holder

---

Today Kerry Bowen called me to let me know he received the correspondence that I sent on April 6, 2011 and that he is the new owner of the ranch.

He stated that there were no devices on the diversion system. When I asked when he could install them, he said in another year since he just bought the property. I told Mr. Bowen that I would email him the watermaster's information as he would need the watermasters permission before the department can consider a deferral.
