Explain why additional time to complete transfer is needed and show a reasonable cause for the delay:
Transfer No. 74921 filed by Telford Lands, LLC, added a point of diversion to its existing water rights for a new well. In order to deliver water from the new point of diversion, it is necessary to run a pipeline from the well through neighboring properties. Mr. Telford planned to run the pipeline along existing county roads. However, he was notified by Butte County that they have never declared or had dedicated certain county roads, which would therefore be owned by the County. Therefore, title to roads is still held in the name of the adjacent landowners. Mr. Telford has attempted to work with a Mr. Lon Haney, who owns a parcel of property, to obtain authorization to run the pipeline through his property next to the road. Attached are copies of two letter sent by Robert L. Harris, Mr. Telford's counsel, and he has not received any response from Mr. Haney. Additionally, Mr. Harris has left numerous phone messages with Mr. Haney to discuss placement of the pipeline. At this point, it appears that Mr. Haney is not willing to engage in any type of negotiations for placement of the pipeline. Mr. Telford began drilling the well earlier this year, but when issues arose regarding the pipeline matter, the well drillers ceased drilling of the well. Additional time is needed to complete the transfer in order to obtain and/or litigate rights-of-way issues. Costing \$ 10,000.00 has been spent to date.
