Darla,

Today, I am having hand-delivered to IDWR's state office (to your attention) a signed original Statement of Completion for water right Permit No. 31138 in the name of the City of Meridian. This form is meant to accompany the field licensing examination that I submitted March 24, 2011 for the same water right.

I understand that the timing of the City's Request for Extension of Time to submit proof for this water right is such that the original Proof of Beneficial Use form signed by the Mayor in 2006 would no longer be applicable; that makes perfect sense and I apologise for my oversight and for the inconvenience of additional paperwork. Please consider this e-mail to be my transmittal letter.

Thank you.
