Dear Cherie,

I can answer *two* of your questions, below, and am still working on the third:

1) CITY OF MERIDIAN WATER MASTER PLAN:

- a. The City developed funding for a project last year and advertised for a new water master plan to be developed.
- b. The project was let to a consultant this year and is underway but is unlikely to be done within the time frame of the processing of this water right application.

2) WATER USAGE RECORDS DURING THE BENEFICIAL USE PERIOD:

- a. This has turned out to be a very busy week for the Water Department.
- b. I did make contact to request the data and I expect I will get something later this week or early next.

3) SERVICE AREA OVERLAP WITH UNITED WATER IDAHO:

- a. Attached, above, please find the most recent revision of UWID's water service area.
- b. The Public Utilities Commission, which regulates UWID, does *not* allow service area overlaps.
- c. I know, from when I worked there, that there *is* a provision for where two service areas abut one another, Meridian and United Water for example, that UWID can serve within a prescribed (short) distance into the other service area (across the street for example). Even in these small isolated instances, though, UWID cannot serve inside the City's area unless the City cannot yet serve that area.

I will forward the production data as soon as I receive it. I hope this helps.

Subject: 63-31138 for City of Meridian-License Review

Ed,

I am the agent that is assigned to the licensure of 63-31138, City of Meridian. To make my license review complete, I wondered if you could provide a few items or at least direct me in the right direction. Here is a list of the items that I am looking for:

- a master plan for the city of Meridian

-Water usage records during the beneficial use period and

-the service area for United Water I can document overlaps with the city Meridian

I appreciate any help that you can offer and I look forward to hearing back.
