Water bearing zone to be appropriated from an existing well is from 130 to 140 feet. Use is for Boise Depot and associated Platt Gardens. Consumptive use for shallow well considered tributary to the Boise River is provided by retiring 5 acres of irrigation under South Boise Mutual Irrigation Company. This will be done by leaving 0.10 cfs from senior water right 63-283A undiverted in the river. The irrigation company rights are diverted via the Bubb Canal in southeast Boise.

RE: Application for Permit #63-33473

Dear Applicants:

Your application above is being reviewed and processed by agency staff. Attached is an amended application form that reflects several changes and corrections. The following changes have been made to the application:

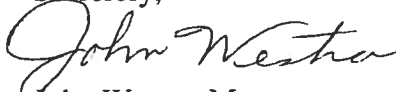

-#4 The household/irrigation uses listed on your application have been separated to become Domestic .02 cfs (in house use) and Irrigation .03 cfs for 1 acre. The total appropriation would then be .05 cfs under #5.

-#3 & #8 Point of Diversion and Place of use: the application lists the NWSE of section 11 04N 01E which appears incorrect from the county taxlot records and your map. The place of use should read NENW of section 11 04N 01E.

Please sign and the amended application forms and return the forms to this office by **June 10, 2011**. An untimely reply may result in the application ordered void.

Should you have questions, please contact me at the Western Regional Office, phone 334-2190.

Sincerely,

John Westra, Manager

Enclosure: amended application, map,
