RE: DEQ comments on water right application 75-14702

Dear Mr. Duncan:

The Idaho Department of Environmental Quality (Department) reviewed your water rights application, as well as the associated existing water quality information near your proposed project site identified in Application 75-14702.

It appears this application is to re-authorize a previously existing water right and to provide irrigation water April 1 to October 15 every year. The Department has no opposition to the granting of this right if it is developed according to the information provided.

We have no other comments at this time. Additionally, the Department believes this letter is sufficient to allow the Department of Water Resources to complete their review of your water rights application. Thank you for the opportunity to review your application.

Please do not hesitate to contact me at 208.528.2650 for any additional information we may be able to provide.

Sincerely,

A handwritten signature in black ink, appearing to read "Troy Saffle", is written over a large, stylized "X" mark.

Troy Saffle
Regional Water Quality Manager
Idaho Falls Regional Office
