RE: Phone Conversation

---

Today Irene Hultgren called me to explain that she has been working with the watermaster to get into compliance with the lockable device condition on her permit (apparently she has an interest in 65-22904 as well).

She will send in a petition for reconsideration in tomorrow's mail to explain the situation. Mrs. Hultgren also explained that the watermaster is going to call Shelley Keen to further explain what he requires of the permit holders.
