DEPARTMENT OF
WATER RESOURCES

Dear Monica:

11/9/10

I received your letter and my application to rent water. In an effort to understand what I was supposed to do I had a conversation with Cindy Yenter. Cindy told me she had maps that show the 52.1 enlargement acres we are trying to cover. She said she would contact you and supply you with copies of the same. I will send this application back to you so you can attach the maps and information she gives you.

Hopefully this will provide the information you were seeking. Please let me know if there is anything further I can do.

Thank you:

Richard B Dalley
