

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF APPLICATION)
FOR TRANSFER NO. 66218 (4793))
IN THE NAME OF N. STANLEY)
STANDAL)
_____)

DEFAULT ORDER

RECEIVED

JUL - 5 2002

Department of Water Resources

This matter having come before the Idaho Department of Water Resources ("Department") as Application for Transfer, the Department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On September 29, 1995 N. Stanley Standal ("applicant") filed Application for Transfer No. 66218/4793 ("application") with the Department proposing to modify water rights associated with lands in Gooding County, Idaho.
2. The Department advertised the applications on April 4 and 12, 1996. Application No. 66218/4793 was subsequently protested by the Idaho Department of Fish and Game. The Department of Water Resources has held the application pending resolution of the contested case.
3. On February 25, 2002 the Department corresponded with the applicant inquiring of his continuing interest in the application. The contact was made in an effort to schedule a formal hearing for the protested application. The applicant did not respond to the inquiry.

CONCLUSIONS OF LAW

1. IDAPA Rule 37.01.01700 (Rule of Procedure 700) authorizes the Department to issue a Notice of Proposed Default for Failure to Respond to a written inquiry.
2. On June 21, 2002 the Department sent a Notice of Proposed Default to the applicant; the applicant did not respond.

ORDER

IT IS THEREFORE, HEREBY ORDERED that Application for Transfer No. 66218/4793 is **SET ASIDE** and **DISMISSED** without further consideration by the Department as provided in IDAPA Rule 37.01.01702 (Rule of Procedure 702).

Dated this 2nd day of July, 2002.

ALLEN MERRITT, PE
Southern Region Manager (Presiding Officer)

OF THE STATE OF IDAHO**

IN THE MATTER OF APPLICATION)
FOR TRANSFER NO. 66218 (4793))
IN THE NAME OF N. STANLEY)
STANDAL)
_____)

**NOTICE OF
PROPOSED DEFAULT ORDER**

This matter having come before the Idaho Department of Water Resources ("Department") as Application for Transfer, the Department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On September 29, 1995 N. Stanley Standal ("applicant") filed Application for Transfer No. 66218/4793 ("application") with the Department proposing to modify water rights associated with lands in Gooding County, Idaho.

2. The Department advertised the applications on April 4 and 12, 1996. Application No. 66218/4793 was subsequently protested by the Idaho Department of Fish and Game. The Department of Water Resources has held the application pending resolution of the contested case.

3. On February 25, 2002 the Department corresponded with the applicant inquiring of his continuing interest in the application. The contact was made in an effort to schedule a formal hearing for the protested application. The applicant did not respond to the inquiry.

CONCLUSIONS OF LAW

1. IDAPA Rule 37.01.01700 (Rule of Procedure 700) authorizes the Department to issue a Notice of Proposed Default for Failure to Respond to a written inquiry.

2. The Department should enter a Notice of Proposed Default for Failure to Respond to a written request for information about the application and for failure to show a continuing interest in the application.

ORDER

IT IS THEREFORE, HEREBY ORDERED that the Department plans to enter a Default Order **SETTING ASIDE** Application for Transfer No. 66218/4793 as provided in IDAPA Rule 37.01.01702 (Rule of Procedure 702).

Dated this 21st day of June, 2002.

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1

Name of applicant N. Stanley Stoddard Phone 837-4970
Post Office address 609 River Road, Bliss, ID 83314

A. PURPOSE OF TRANSFER

1. ☒ Change point of diversion ☐ Add diversion point(s) ☐ Change place of use
☐ Change nature of use ☐ Change period of use ☐ Other _____
2. Describe the reason for the proposed changes PER 03/22/96 TELECOM WITH APPLICANT CS
Improve water quality by enclosing the water in a pipeline from the springs to the power plant (Claim A37-04033) & from the power plant to the fish ponds. Water for the fish ponds has been diverted below the power plant. the first pond below the springs

B. DESCRIPTION OF RIGHT(S) OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. Right Number	Priority	Amount (cfs/ac-ft)	Nature of Use	Period of Use
<u>A37-04034</u>	<u>5-13-1969</u>	<u>13.0 cfs</u>	<u>Fish Prop.</u>	<u>1-1 to 12-31</u>
* <u>A37-04033</u>	<u>11-15-1965</u>	<u>14.0 cfs</u>	<u>POWER</u>	<u>1-1 to 12-31</u>
* <u>A37-04225</u>	<u>02-03-1888</u>	<u>8.00 cfs</u>	<u>IRRIGATION</u>	<u>3-15 to 11-15</u>
		<u>0.50 cfs</u>	<u>MINING</u>	<u>1-1 to 12-31</u>

2. Total amount of water being transferred 35.0 cubic feet per second and/or _____ acre-feet per annum.
3. Source of water Stoddard Creek tributary to Snake River
4. Point(s) of Diversion:

Lot	1/4	1/4	1/4	Sec.	Twp.	Rge.	County	Local name for diversion
	<u>SW</u>	<u>NW</u>	<u>NW</u>	<u>27</u>	<u>6S</u>	<u>13E</u>	<u>Gooding</u>	

5. Lands irrigated or place of use: No Change

Twp.	Rge.	Sec.	NE ¼				NW ¼				SW ¼				SE ¼				Totals
			NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼

**STATE OF IDAHO
DEPARTMENT OF WATER ADMINISTRATION**

CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Norman S. Standal
post office address Star Route Bliss, Idaho 83314

2. The point of diversion is in NW $\frac{1}{4}$ of NW $\frac{1}{4}$ Section 27 Township 6S
Range 13E B.M. located on Stoddard Creek
(name of source)
tributary to Snake River in Gooding County.

3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.

a. Date of priority claimed:

November 15, 1965 amount: 14 c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
Total claimed _____ c.f.s. or _____ acre feet.

b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed: hydroelectric

use power generation period of use from Jan 1 to Dec 31 (both dates inclusive)

use _____ period of use from _____ to _____ (both dates inclusive)

use _____ period of use from _____ to _____ (both dates inclusive)

use _____ period of use from _____ to _____ (both dates inclusive).

4. Description of diverting works:

a. Surface water diversion dam and/or headgate: material is composed of _____
Earth, rock, concrete & steel; length is 40 feet; height is 4 feet;
width at bottom is _____ feet; width at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____
no change since original 24" pipe and steel box diversion
structure

b. Underground water diverting works: is well flowing or pumped _____; depth of well is _____ feet; diameter of well is _____ inches; type of pump is _____
capacity of pump is _____ g.p.m.; name and address of well driller is _____

attach well logs if available; has there been any change in pump or motor since well was first completed _____; if so, give dates and explain _____

- c. Conveying works: length of ditch to place of use is _____ feet; width of ditch at top is _____ feet; width of bottom of ditch is _____ feet; depth of water is _____ feet; grade of ditch per 1000 feet is _____ feet; material through which ditch passes is _____; maximum length of pipe line to first place of use is 250 feet; diameter of pipe line is 14 to 24 inches; type of pipe steel; grade of pipe per 1000 feet is 60 ft drop in 250. ft.

Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible_____

none

- d. If water is stored: name of reservoir _____;
total capacity of reservoir is _____ acre feet; active capacity of reservoir is _____ acre feet;
year construction commenced _____; year completed _____; date first used _____
period of storage is from _____ to _____; is reservoir drained each year _____;
is reservoir on or off stream _____ explain _____

if feeder canal is used give maximum carrying capacity _____ c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions _____

has there been any enlargement of the reservoir since it was first built_____, if so, give dates and describe_____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

[illegible]

Total number of acres to be irrigated _____

Explain any significant increase in area irrigated since first use, give dates and acreages if known _____

b. Do you get water through a ditch owned by several users? no If yes, give the name of the ditch _____
_____. The other users and their respective
interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered _____

7. Where water is used for domestic or municipal purposes give number of families served _____
name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use,
and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible,
giving dates and quantities after above use, this water is also used for
fish culture, then for irrigation.

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation
The electrical power generated herein has been used for the
total electrical needs, including heating, of a home, farm
and a commercial machine shop since 1965.

State of Idaho }
County of Gooding } ss.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the
foregoing claim to a water right, together with all attached information, and that the matters and facts therein are
true to the best of the affiants knowledge.

RECEIVED
FEB 27 1972
INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	May 18, 1871	amount:	0.8 c.f.s. or	_____	acre feet
	June 1, 1901	amount:	0.4 c.f.s. or	_____	acre feet
	Total claimed:		1.2 c.f.s. or	_____	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing a Claim to a Water Right is \$10.00. Your claim and fee may be submitted to one of the following offices:

NOTICE OF CLAIM TO A WATER RIGHT NO. 37-4033

Notice is hereby given that Norman S. Standal, Star Route, Bliss, ID has filed a claim to a water right established by diversion and application to beneficial use of 14.0 cubic feet per second of water from Stoddard Creek with point of diversion in the NW 1/4 NW 1/4, Sec. 27, T. 6S, R. 13E, B.M., Gooding County.

The water is claimed to be used from Jan. 1 to Dec. 31 for hydroelectric power generation with a priority of Nov. 15, 1965; the place of use is within the NW 1/4 NW 1/4, Sec. 27, T. 6S, R. 13E, B.M.

Any exception to this claim of water right may be filed with the Idaho Department of Water Administration, 1041 Blue Lakes Boulevard North, Twin Falls, Idaho, 83301.

Re: Protested Application for Transfer No. 66218 (4793) filed on 9/29/95

Dear Mr. Standal:

The enclosed "Notice of Proposed Default Order" has been prepared pursuant to Rules of Procedure 700 through 702 listed below. Pursuant to Rule of Procedure 701 the applicant must petition within seven (7) days from the date of service to prevent the issuance of the default order. Rules of Procedure 053 through 057 may have bearing on responding to this notice.

700. NOTICE OF PROPOSED DEFAULT AFTER FAILURE TO APPEAR OR RESPOND (Rule 700). If an applicant or claimant or appellant, petitioner, protestant, complainant, or moving party fails to appear at the time and place set for hearing, or prehearing conference, on an application or claim or appeal, petition, complaint, or motion, or fails to respond to a written information inquiry, the presiding officer may serve upon all parties a notice of a proposed default order denying the application or claim or appeal, petition, complaint, or motion. The notice of a proposed default order shall include a statement that the default order is proposed to be issued because of a failure of the applicant or claimant or appellant, petitioner, complainant or moving party to appear at the time and place set for hearing or prehearing conference, or to respond to the information inquiry. The notice of proposed default order may be mailed to the last known mailing address of the party proposed to be defaulted. (4-5-00)

701. SEVEN DAYS TO CHALLENGE PROPOSED DEFAULT ORDER (Rule 701). Within seven (7) days after the service of the notice of proposed default order, the party against whom it was filed may file a written petition requesting that a default order not be entered. The petition must state the grounds why the petitioning party believes that default should not be entered. (7-1-93)

702. ISSUANCE OF DEFAULT ORDER (Rule 702). The agency shall promptly issue a default order or withdraw the notice of proposed default order after expiration of the seven (7) days for the party to file a petition contesting the default order or receipt of a petition. If a default order is issued, all further proceedings necessary to complete the contested case shall be conducted without participation of the party in default (if the defaulting party is not a movant) or upon the results of the denial of the motion (if the defaulting party is a movant). All issues in the contested case shall be determined, including those affecting the defaulting party. Costs may be assessed against a defaulting party. (7-1-93)

053. COMMUNICATIONS WITH AGENCY (Rule 53). All written communications and documents that are intended to be part of an official record for a decision in a contested case must be filed with the officer designated by the agency. Unless otherwise provided by statute, rule, order or notice, documents are considered filed when received by the officer designated to receive them, not when mailed, or otherwise transmitted. (7-1-93)

054. IDENTIFICATION OF COMMUNICATIONS (Rule 54). Parties' communications addressing or pertaining to a given proceeding should be written under that proceeding's case caption and case number, if applicable. General communications by other persons should refer to case captions, case numbers, permit or license numbers, or the like, if this information is known. (7-1-93)

055. SERVICE BY AGENCY (Rule 55). Unless otherwise provided by statute or these rules, the officer designated by the agency to serve rules, notices, complaints, and orders issued by the agency may serve these documents by regular mail or by certified mail, return receipt requested, to a party's last known mailing address or by personal service. Unless otherwise provided by statute, these rules, order or notice, service of orders and notices is complete when a copy, properly addressed and stamped, is deposited in the United States mail, or the Statehouse mail if the party is a State employee or State agency. The officer designated by the agency to serve documents in a proceeding must serve all orders and notices in a proceeding on the representatives of each party designated pursuant to these rules for that proceeding and upon other persons designated by these rules or by the agency. (4-5-00)

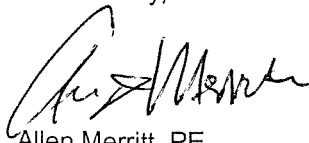

056. COMPUTATION OF TIME (Rule 56). Whenever statute, these or other rules, order, or notice requires an act to be done within a certain number of days of a given day, the given day is not included in the count, but the last day of the period so computed is included in the count. If the day the act must be done is Saturday, Sunday or a legal holiday, the act may be done on the first day following that is not Saturday, Sunday or a legal holiday. (7-1-93)

057. ADDITIONAL TIME AFTER SERVICE BY MAIL (RULE 57). Whenever a party has the right or is required to do some act or take some proceedings within a prescribed period after the service of a notice or other paper upon the party and the notice or paper is served upon the party by mail, three (3) days shall be added to the prescribed period. This rule, however, shall not extend the time for filing a protest, a petition for reconsideration of a preliminary, recommended or final order before the agency, the time for filing exceptions with the agency head to a preliminary or recommended order, or the time for filing an appeal with the district court from a final decision of the agency. (4-5-00)

RE: Transfer Application No. 4793

Dear Mr. Standal:

As you may recall several years ago you filed an application for transfer to modify water rights on Stoddard Creek. The transfer application was protested by Idaho Department of Fish & Game. To date no conference or hearing has been held regarding this protested matter.

The purpose of this letter is to inquire of your continued interest in your application. Please let me know within **30 days** of your continued interest.

Do you want to withdraw the application? Do you want our office to continue to hold the application? Do you want to schedule a conference and/or a hearing? What dates are you available to hold a conference?

If you have questions, please feel free to contact me at this office.

Sincerely,

Allen Merritt, PE

No 28114

NOTICE OF PROPOSED CHANGE OF WATER RIGHT

Notice is hereby given that
N. STANLEY STANDAL,
609 RIVER ROAD; BLISS
ID 83314 has applied to the
Department of Water
Resources to change the
following described water
right(s) pursuant to Section
42-222 of IDAHO CODE
and further described as
Transfer No. 4793.

The purpose of this
application is to change the
point of diversion by
diverting the source further
upstream. The proposed
new diversion point is
within SW1/4NW1/4NW1/4
S27, T6S, R13E; Gooding
County.

Source: Stoddard Creek
tributary to Snake River
Water Right No. A37-
04033 with a priority date
of 11-15-1965 for Power
(14.0 cfs)

Water Right No. A37-
04034 with a priority date
of 05-13-1969 used for Fish
Propagation (13.0 cfs)

Water Right No. A37-
04225 with a priority date
of 02-03-1888 used for
irrigation (8.00 cfs)

and Mining (0.50 cfs)

Total amount of water being
transferred is 35.0 cfs and
all places of use are located
within S28, T06S, R13E.

Period of use for Power,
Fish Propagation and
Mining is from 1/1 to
12/31. Irrigation of 80
acres is used from 3/15 to
11/15. The combined
Irrigation and Mining use is
limited to 8.00 cfs.

Any protest against
approval of the proposed
changes must be filed with
the Department of Water
Resources, Southern
Region, 222 Shoshone
Street East, Twin Falls, ID
83301 together with a
protest fee of \$25.00 on or
before April 22, 1996. The
protestant must also send a
copy of the protest to the
applicant.

Karl J. Dreher, Director

Published in the Times
News on 4/4 & 4/11/96.

I, Arvida Capps McBuire being first duly sworn upon oath, depose
and say that I am Principal Clerk of the TIMES-NEWS, published daily, at
Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per
clipping attached, was published in the regular and entire issue of said newspaper, and not in any
supplement thereof, for Two consecutive Publications,
commencing with the issue dated April 4, 19 96,
and ending with the issue dated April 12, 19 96.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except
Monday, both of which newspapers prior to consolidation had been published under said names in said city and county
continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since
such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said
newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be
published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each
issue thereof, Thursday is announced as the day on which said legal notices will be published.

RE: Water Right Transfer No. 4793 (N. Stanley Standal)

Dear Allen,

We would like to protest the above referenced transfer of water rights by Mr. N. Stanley Standal for the purpose of changing the point of diversion for 35.5 cfs. of water from Stoddard Creek located in Gooding County, Idaho. For the following reason, it is the position of our agency that this transfer is not in the best interest of the general public of Idaho:

The upstream transfer of Mr. Standal's point of diversion will result in the loss of wetland and riparian fish and wildlife habitat. Currently, the area proposed for piping or placement in an open channel is a functioning stream channel with an associated wetland/riparian complex. Loss of the stream channel and wetland will result in the reduction or displacement of fish and wildlife in the upper end of Stoddard Creek.

We would be willing to meet on-site with the applicant and representatives of Idaho Dept. of Water Resources to further discuss concerns and issues regarding this application. To coordinate a meeting please contact Dave Parrish, Environmental Staff Biologist at this office, (208) 324-4359.

Sincerely,

Carl H. Nellis

MEMORANDUM

TO: Stanley Standal Transfer (#4793) File

FROM: Corey Skinner *CS*

DATE: March 29, 1996

SUBJECT: Update to File

This day, Stanley Standal called and expressed a concern regarding his transfer application. His concern relates to the total amount of water being transferred, 35 cfs. He was concerned about public image, in particular people believing that he is taking 35 cfs out of the river. He thought that the transfer should reflect 14 cfs as the total amount diverted. This was the most water he takes out of Stoddard Creek at any particular diversion.

I explained to him that, since all three claims were separate, and he is proposing to change all three claims, there respective sum is the total amount transferred. I also told Mr. Standal that I had just completed my staff review report that explained his current system and the proposed changes and it accompanies his application file. I told him I could add a memo to his transfer application file further clarifying his system. That way, if anyone called inquiring about the matter, it would be in the file and we would be able to explain his system and the proposed changes to them. He seemed satisfied with my response, and agreed that an extra memo in the file would be satisfactory.

Mr. Standal's current system involved with this transfer consists of a series of diversions out of Stoddard Creek, A37-04033, A37-04034, and A37-04225. The power diversion, A37-04033, is the first actual diversion out of Stoddard Creek and consists of a penstock/pipe leading to a powerplant. One diversion point on the irrigation claim, A37-04225, is out of this same penstock/pipe leading to the powerplant. After the water, if any, is diverted out of the penstock/pipe for irrigation, the remaining water continues down the penstock/pipe and through the powerplant and into a pond that is actually Stoddard Creek (pond C on attachment A of 03/26/96 memo to file). Then water is diverted out of this pond, which is actually Stoddard Creek, and used in the fish ponds/raceways, claim A37-04034.

Mr. Standal stated that he was diverting water out of Stoddard Creek, putting it back in the creek and rediverting it. This statement agrees with how his system operates, but he still has three distinct claims. He proposes to change an element of each of these three claims, so the sum of these three individual claims is what is being changed.

MICROFILMED

OCT 8 2 2002

MEMORANDUM

TO: Stanley Standal Transfer (#4793) File

FROM: Corey Skinner

DATE: March 26, 1996

SUBJECT: Staff Review

Transfer #4793, filed by Stanley Standal, was filed to change the point of diversion for SRBA claims A37-04033, A37-04034, A37-04225.

The portion of Mr Standal's system that would be affected by this proposed transfer is represented by the sketch on attachment A. Stoddard Creek flows approximately east to west, right to left on attachment A. The creek flows through pond A, through a culvert in Barlogi Lane, through pond B, in a culvert under old U.S. 30, down a penstock/pipe to a powerplant through pond C and continues westward towards the Snake River. Mr. Standal currently diverts water out of this section of Stoddard Creek at the bottom end of pond B at old U.S. 30 (SRBA claim A37-04033 for power), out of the penstock/pipe just above the powerplant (one of two diversion points listed in SRBA claim A37-04225 for irrigation and mining), and at the bottom end of pond C (SRBA claim A37-04034 for fish propagation).

Through this transfer, Mr. Standal proposes to extend a pipeline &/or open channel further upstream from his current uppermost diversion, at the bottom end of pond B at old U.S. 30, through pond B, through a culvert in Barlogi Lane, to the bottom of pond A. In addition, Mr. Standal proposes to install a pipeline below the powerplant, through pond C to his currently existing diversion point for the fish pond(s)/raceway(s), SRBA claim A37-04034 for fish propagation. Essentially, the transfer proposes to enclose the water Mr. Standal currently diverts from the section of Stoddard Creek shown on attachment A (from the bottom of pond B and old U.S. 30 to the diversion point for the fish propagation claim, A37-04034, at the bottom of pond C) in a pipe &/or open channel and a pipe. The beginning of this proposed diversion and delivery system would be located at the bottom of pond A and Barlogi Lane, so any of Mr. Standal's diversions from Stoddard Creek below this point, and above the diversion for the fish pond(s)/raceway(s), would have to be changed to reflect this new point of diversion.

Since these three SRBA claims (A37-04033, A37-04034, and A37-04225) are all based on statutory claims, it is imperative that if this transfer is approved, that **these three claims still be subject to SRBA review**. A brief field check, conducted by myself and Allen Merritt on March 25th, revealed the following information. It should be noted that Mr. Standal stated that the highest flows

MICROFILMED
OCT 10 2 2000

typically occur around January.

A37-04033

It was observed that a power plant exists at the bottom of the penstock/pipe shown on attachment A. Allen and I measured the flow through the penstock with a polysonic instrument and obtained the following flow measurement(s)...

4366.8 gpm 4385.3 gpm 4430.2 gpm

average = 4394.1 gpm = **9.76 cfs**

A37-04034

It was observed that two fish ponds/raceways exist just below the roadway leading to Mr. Standal's house as shown on attachment A. The outflow from these two ponds/raceways was measured through four separate 36 inch rectangular weirs (two weirs at the tail end of each pond/raceway) and yielded the following results...

SOUTH POND/RACEWAY

south weir @ 0.38 ft = 2.28 cfs

north weir @ 0.40 ft = 2.46 cfs

NORTH POND/RACEWAY

south weir @ 0.43 ft = 2.74 cfs

north weir @ 0.41 ft = 2.55 cfs

Total outflow from ponds/raceways = 10.03 cfs

A37-04225

The irrigation system was not operating during the time of the field visit, but it was observed that there were hookups on the penstock/pipe just above the powerhouse for irrigation pipe. I observed that sprinklers were set up in the areas around Mr. Standal's house and in the pasture to the west of his house. I did not attempt to locate the lower diversion, further down Stoddard Creek below the fish ponds/raceways, that was also part of SRBA claim A37-04225. **This transfer proposes to change the upper diversion point of A37-04225, the diversion out of the penstock above the powerhouse, and does not affect the lower diversion point (the diversion claimed to be located in the SENENE $\frac{1}{4}$). Mr. Standal gave the impression that the mining component of claim A37-04225 was no longer used, but the irrigation component still was. My casual observations led me to believe that a significant portion of the claimed irrigated acres was probably irrigated.**

A37-04032

This is a claim that supplies water to the fish hatchery near

MICROFILMED

OCT 02 2002

Mr. Standal's house. This diversion and delivery system is separate from the diversion and delivery system that is involved with this particular transfer. However, the delivery pipe runs next to the existing penstock/pipe and was also measured with the polysonic instrument during our field visit. The following flow rates were measured...

385.96 gpm	381.73 gpm	average flow = 383.8 gpm
		= 0.85 cfs

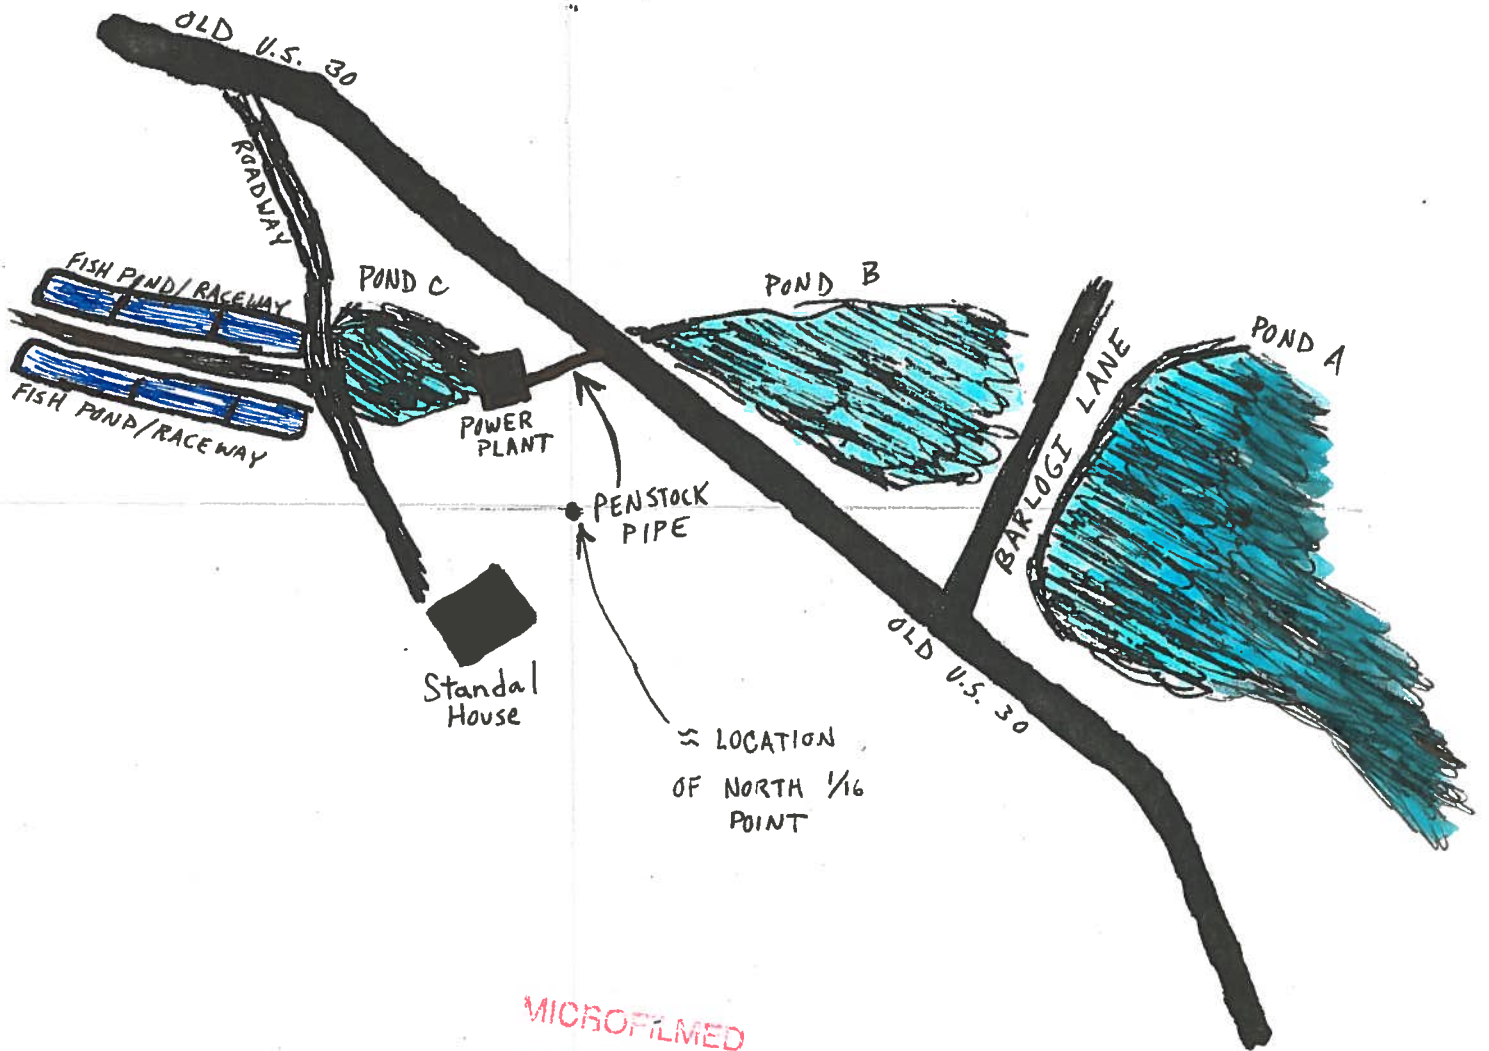

Overall, this transfer is fairly straightforward, but based on SRBA claims that will need to be subject to review. Essentially Mr. Standal wishes to move his uppermost diversion further upstream. However, just above his current diversion is a marshy pond, possibly a wetland (referred to as pond B on attachment A). Mr. Standal proposes to build a pipeline &/or an open channel across this area. I am not sure, but the Army Corps of Engineers may need to possibly be involved if any work is done in this area. This particular area, part of lot 1 of Spring Acres Subdivision (parcel #003020000010), is owned by Mr. Standal, I verified this via telecom with the Gooding County Assessor's office on March 26th.

However, I know that people (Zane Harrison and his wife and Karen Fulton) have already expressed concern about Mr. Standal disturbing this area, pond B. I explained, based on the information presented in the application, what Mr. Standal proposed to do and told both parties (the Harrison's and Ms. Fulton) that the application would be advertised in the newspaper, and could be protested by going through the appropriate process.

NOTICE OF PROPOSED CHANGE OF
WATER RIGHT

Notice is hereby given that N. STANLEY
STANDAL, 609 RIVER ROAD; BLISS ID
83314 has applied to the Department of
Water Resources to change the following
described water right(s) pursuant to Section
42-222 of IDAHO CODE and further
described as Transfer No. 4793.

The purpose of this application is to change
the point of diversion by diverting the
source further upstream. The proposed new
diversion point is within
SW1/4NW1/4NW1/4, S27, T6S, R13E;
Gooding County.

Mr. Norman S. Standal
Star Route
Bliss, ID 83314

Dear Mr. Standal:

In reasearching our records for possible inclusion of water rights in the Judgment and Decree of Thomas M. Hamilton, et al. vs. Norman Standal, et al., our records show your claims, Nos. 37-4031, 37-4032, and 37-4033, with the point of diversion in the same 40-acre tract as specified in the decree. Your claims filed prior to the decree date of November 15, 1979, name the sources as unnamed spring and Stoddard Creek. The Judgment and Decree refer to the source as Stoddard Creek Spring or spring. It is not clear to us if the sources as named on your claims is the same source named in the decree.

There also appears to be a discrepancy in the purpose of use. While your decreed right declares the water to be beneficially used for power and fish culture, it adds the use of irrigation (not shown on your claims) and excludes domestic use as shown on Claim 37-4031.

We are in hopes that you will be able to help us in clarifying how your water right claims relate to your decreed right. Enclosed is a copy of the decree and the claims in question. Any information you can give us in helping us determine if the claims were included in your decreed right will be appreciated.

Sincerely,

Roberta Garrett
Records Supervisor

Re: Claims of Norman Standal, Bliss, Idaho, Claims
No. 37-4031, 37-4032 and 37-4033

Dear Marty:

Last week the Department supplied me the above three referenced claim to water rights filed by Norman Standal in Section 27, Township 6 South, Range 13 East, Boise Meridian, Gooding County, Idaho.

I would appreciate copies of any affidavits that have been filed in support of these claims.

Thanks for your continuing help and please bill me for the copies if any there be.

I would also appreciate a summary of any other water rights which you have recorded in Section 27, Township 6 South, Range 13 East, Boise Meridian. While the section itself may include a portion of the property on top of the Snake River Canyon, as opposed to spring flows in the lavas or down in the canyon, I am essentially only interested in those that would be in that section north of Snake River, south of the canyon rim. Most of those would be no doubt located in the west half of said section, if any there be.

Sincerely,

JOHN A. ROSHOLT

RECORDED

May 8, 1973

RE: Claim No. 37-4033

Mr. Norm Standal
Star Route
Bliss, ID 83314

Dear Norm:

We have encountered some problems concerning your Claim to a Water Right for hydroelectric power generation filed with us on January 30, 1973.

Please come into our office at your earliest convenience so we may discuss the matter and take care of the problem.

Very truly yours,

Bob Haynes
District Engineer
Southern District

BH:alw

37 4033

RECEIVED

MAR 5 1973

Department of Water Administration
Southern District Office

M E M O

FROM: Water Rights Division 
TO: Southern District
DATE: March 2, 1973
SUBJECT: Claim 37-4033

The claim filed by Norman S. Standal, Bliss, Idaho, concerning the waters of Stoddard Creek, priority November 15, 1965 for hydro-electric generation appears to be in conflict with Idaho law.

Any constitutional appropriation for power purposes had to be completed prior to 1937. As of 1937, changes in Idaho law provided that only when a permit is ^{issued} ~~used~~ by this agency in compliance with 42-202, 42-205, and 42-206 Idaho Code, can a right be established for the purpose of power generation.

This matter has been reviewed by the Department's assistant Attorney General on a prior occasion and due to the conflict, the Department must contact Mr. Standal and advise him of the problem and instruct him to file at once. Following this, an exception must be prepared and filed in connection with file 37-4033.

If Mr. Standal does not file a permit and comply with Section 42-202 Idaho Code, which is in compliance with 42-205 and 42-206 Idaho Code, the Department shall immediately issue an order instructing Mr. Standal to cease and desist generation of power as indicated in Claim 37-4033.

RE: Claims to a Water Right Nos. 37-4031, 37-4032, 37-4033, & 37-4034 - Norman S. Standal

Mr. Norman S. Standal
Star Route
Bliss, ID 83314

Dear Mr. Standal:

The Department of Water Administration has completed the processing of your claims to a water right, and no further action is authorized under Sections 42-225a and 42-225b of the Idaho Code. Your claims will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claims does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claims.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of the claim. If you have any questions or if we can be of further assistance, please feel free to call upon us.

Very truly yours,

Bob Haynes
District Engineer
Southern District

Gooding County Leader

Box 55

Gooding, ID 83330

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Very truly yours,

Bob Haynes
District Engineer
Southern District
