

MEMORANDUM

Date: April 21, 1998

To: Files

From: Jim Johnson

Subject: Request to Amend Approved Transfer 5046

=====

On March 20, 1998 the Department approved the above referenced transfer containing the following condition.

This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.

On April 6, 1998 Chuck Brockway, representing the transfer applicant contacted me concerning the condition, pointing out that it was inconsistent with the rates of diversion per acre listed on the transfer.

I have reviewed the matter and after discussing various alternatives with my supervisor we have elected to remove the condition.

An amended transfer approval has been prepared and an amended preliminary order will be issued.

SUBJECT: TRANSFER 5046

DATE: February 26, 1998

=====

This is the third of three (3) transfers filed by the applicant to more fully describe the use of these 33 surface water rights on the 2711.3 acre place of use. These rights are used in conjunction with the three (3) groundwater rights under Transfers 5044 & 5045; 37-02617, 37-02620 and 37-02627A. The transferred groundwater rights describe the same common place of use.

The transfer creates a combined permissible place of use, adds all diversion points, and identifies both Silver Creek and Loving Creek as sources under each right. Season of use and total diversion volume were adjusted to current standards. Domestic use found on some of the rights was changed to reflect historic stockwater use. The extent of the stockwater use was provided by the applicant's representative and maximum limits identified in conditions of approval.

Recommended conditions include Watermaster control, measuring devices & lockable controlling works, irrigation overlap, future impact or injury, multiple points of diversion, combined limits, use in conjunction with groundwater, right-of-way, no new diversion headgates and standard transfer conditions.
