RE: Water Right Permit No. 15-07267

Dear Julie Gleed:

Thank you for the May 21, 2011 letter regarding permit 15-7267. Per your request, the Department of Water Resources (IDWR) reviewed permit 15-7267 and the field examination report by Denise Kidman and think we are almost ready to issue a license on permit 15-7267

The only issue we need to address is that Ms. Kidman reported that the point of diversion had been developed differently than described on your permit. The permit authorized development of the point of diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec 14, Township 15 South, R35E. Ms. Kidman located the well using a GPS and found that it is located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec 14, T15S, R35E. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

If you have any questions, please call me at (208) 287-4916.

Sincerely,

Craig L. Saxton
Water Rights Supervisor
