Errors were discovered in the examination report of the above referenced license.

The tracing of the Aerial Photo is not accurate enough to be used for calculation of irrigated acreage.

Government Lot #3 does not cover both the SWNW and the SENW, as indicated on the exam.

The attached copy of the assessors map shows that the irrigation should be:

- 13 acres of irrigation within the SWNW (Gov't. Lot #3).
- 12 acres of irrigation within the SENW.
- 25 acres total irrigation.

Mr Stanbury claims 30 surface acres - Since his land is rather steep (app 110' of rise to 660') I assumed 25 acres - Flat measure ± 17 AC.

Gentlemen:

We are enclosing an application for permit for irrigation water pumped from the Spokane River. I had previously applied in 1966, Application # 41022, and received Permit # 32851. Because of circumstances I was unable to complete this work within the five year period and was notified on May 4, 1972 that this permit had lapsed.

As you can see, I am re-applying and am now in a position to complete the irrigation system.

Thank you.
