Craig,

See below for additional information from Lori Graves regarding one of the files I brought you this morning.

Subject: Idanho Heat/Cool Water Options

Shelley,

I sent you a letter April 13, 2011 with additional information regarding the heating and cooling system serving the Idanha Building. Item 2 confirmed that Parklane wished to use the injection well as a 2nd production well. I just wanted to clarify that although being able to use the injection well as a 2nd production well is preferable; the heating and cooling system can operate at a minimal degree without it.
