RE: Licensing

Overlap Analysis: There are not any other water rights at the PD or POU for this right.

Amendment?: Yes. Both PD and POU have been developed in a different legal description than permitted.

Volume: The volume is limited by diversion rate. The season extends $152 \text{ days} \times 1.9835 \times 0.02 \text{ cfs} = 6$
afa

Source: The quad map does not identify the source for this right as High Spring, it only lists 'Spring'. The source will be changed to Spring tributary of Miners Creek. cp
