RE: Application for Permit 74-15892

Dear Eric:

This letter is a follow up of our telephone conversation today, November 13, 2008. After much discussion with Shelley Keen from our State office, your application will not be processed at this time due to the Lemhi issues. All basin 74 applications are being held until the Department can finalize the procedures on processing these applications.

Due to your application is for Domestic use of .04 cfs, per Idaho Code you fall under 42-111 part B, which states you can drill a well for domestic use for .04 cfs without a permit to appropriate water. As far as the fire protection part of your application, again you can use your well for fire protection per Idaho Code.

You may drill your well and use it for the above to uses. Please notify me of who your driller is and when they plan on drilling and I will issue your drilling permit.

When the Department finalizes the procedures for us to process your application, you will be notified.

If you have any questions, please feel free to contact me.

Respectfully Submitted,

Sharla Cox
Administrative Assistant
