Bob,

In talking with Dave Anderson and Brian Reed, we have come to the conclusion that you can put the well online as of 5/31/2011. This well will operate under the City of Carey's Water System (PWS#5070010).

While granting you access to put the well on line it is imperative that the project be completed. The Twin Falls Regional Office will need within the next 60 days submitted a Completed Operations and Maintenance Manual and a completed set of As-Built drawings. These two items need to be addressed to Brian Reed. If these two items are not completed within the time frame there may be enforcement actions taken on the City of Carey's Public Water System.
