Petition for Reconsideration

RECEIVED

JUN 02 2011

Department of Water Resources

Department of Water Resources
Eastern Region

The first time we discussed this water right we said no. Mike kept after my husband (Carl) until he came up with him. Our water right was for one day in six.

The water came off the hill, came down thru Mike's field quite a ways, went across the road into our field around a dry hill, down to the road, it cross the road into a pasture and never reached of hay field. The years got so dry the water just soaked up the ditch and then was gone. It was just a waste of water.

So we ask for a little more water and was granted. There was no money that change hands. It was just Carl, thinking that the water would be put to better use. Mike plowed up our ditches ~~when~~ when he took over the farm. He didn't ask.

My husband is 82 this year and he didn't like what was going on with all these they were fighting over the sixth day. Carl thought he was doing the right thing and now we are ~~lame~~ half down farm.

Please reconsiderat the loss of our water right .. Its been 30 year sence we have had any water out of Cheery creek.

My son Lyle and his son Robert our grandson want to farm. Robert has wanted to farm sence ~~he~~ was 2. If we don't get our water back there be no use. Thank you for reading this.

Aravoe Barnes
Carl Barne

Von Bloxham had 2 days
Serrie McKnee had 2 day
Mike had one day
Carl had one day

The neboes I were all fighting one
see one day.
