63-7430 SPLIT TREE

All active rights in this series for which no PD change has been approved (red) and those with a P/D change approved through Department approval that did not account for rate-limited system (blue) remain in a diversion rate-limited series of rights with 63-7426.

Rights 63-32160 and 63-32329 transfer processing of PD change accounted for rate-limited system by reducing overall diversion rate. Therefore, children rights do not add up to parent. Rate-limited system diversion rate was reduced accordingly during transfer processing for all associated rights still in system to reflect these two rights being removed from the system. Right 63-31744, if Transfer No. 76872 is approved, will be removed from the rate-limited system in the same fashion as these two rights.

If Transfer No. 76872 is approved, the following rights will remain in the diversion rate-limited series of rights and be limited to diversion of 10.69 cfs; 63-7426, 63-7430A, 63-7430D, 63-31321, 63-31322, 63-32117, 63-32118, 63-32119, 63-32335, 63-32617, and 63-32618. See Transfer No. 76872 review memo for details.

*Right 63-32335 still within list of rights in combined rate-limited series, but condition not on this right record. Possibly put back on right, if future Department filing allows for substantive changes to this right.
