Hi Ann,

Thanks for such a detailed analysis. The piece of the puzzle I was missing was how the acres in Section 31 were protected. I'll look at 36-2449 and 36-7835 and then generate a lease acceptance for 36-7934. Thanks!

Monica

Good Morning Monica...

I think I have this straightened out and will call you to clarify this information if easier...

Originally:

36-2449 and 36-7835 were irrigated in 6S 23E S31

36-7523 and 36-7934 were irrigated in 6S 23E S4

Parts of each of the 4 water rights above have been in the Water Supply Bank (WSB) for some time and at least since 2008.

Mr. Young wanted to use all 4 water rights in both sections, creating a PPU, and manage his water more effectively.

You are right that the pivot corners have not been irrigation for while, as water from each of the 4 rights above was in the bank to offset those acres.

We took all the water from these rights, out of the WSB in 2010, obtained a transfer to use the 4 rights in both sections 31 and 4, created a PPU, and are now putting the junior water back into the bank for the pivot corners, freeing up the senior water rights to be used more efficiently.

My worksheet shows the following water rights' acreage in the WSB since 2008:

36-2449 : 33.9 acres

36-7835 : 33.9 acres

36-7523 : 23.9 acres

36-7934 : 16.2 acres

I'm hoping this makes sense and I'll watch for your email back or a phone call.

Thanks so much for you help Monica,

Ann

Thanks, Ann. I can give you 14 days to submit the information about Section 31. If I don't hear anything by that time, I'll approve the lease for the acres in Section 4 only. Thanks!

Monica

Yes, sorry, it is section 4... thank you so much for making this correction.

I will look into the irrigation of the pivot corners in section 31. Our draftsman is out until Monday, and I'll check with Erick also, to see if we can get some aerial photo's of section 31 in that time frame.

Your help is greatly appreciated... we do owe you donuts! At least there's some sunshine today!

Ann

Hi Ann,

I am continuing to review the RJ LLC application. I see the acres in Section 4 were protected by various leases under 36-7523 and 36-7934 from 2006 to 2010. However, the pivot corners in Section 31 have not been protected by lease and do not appear to have been irrigated in the last 5 years (2010, 2009, 2008, 2007 or 2006). At this point, I feel fairly comfortable accepting the acres in Section 4 into the Bank (pending your confirmation of the typo), but I will need some evidence those corners have been irrigated in the last 5 years. Please let me know if you have any questions.

Thanks!

Monica
