Subject: RE: sales agreement Bypass Limited (FERC #9070)

Hi, Michele,

Yes, we have everything you need and I will scan and email you the information after I've cleared out my inbox from yesterday. And we just happen to have here in the file room both cases dealing with Bypass besides the original cogen contract: IPC-E-89-2 (recently recreated and named IPC-E-89-02), which shows the application for extension of the old contract, and IPC-E-10-45, the recently closed case that deals with the new contract.

Subject: sales agreement Bypass Limited (FERC #9070)

Rick, Xan,

I am tackling the licensing review for another old hydropower water right. With the help of your records, I am making some progress through these. I want to take this opportunity to tell you both how much I appreciate your willingness to go through your files to satisfy my requests for copies of the sales agreements. Those agreements are important to water right licensing. I am very glad that the PUC has copies of them and that you have made it so easy for me to get them.

I believe that the Bypass Limited (FERC #9070) has a sales agreement with Idaho Power Co. The original agreement may have been dated in the late 80's and the North Side Canal Co may have been the original signator. We have the water permit assigned to Bypass Limited LLC in the spring of 1988. And it looks like power was available in April 1988.

Could you provide me a copy of the agreement and any amendments?

Thanks again.

Michele

Hi, Michele,

Here are the cogen contracts (watch out for the double-sided one) of Idaho Power Company with Bypass (Hazelton A), plus the final orders in Case Nos. IPC-E-89-02 and IPC-E-10-45.

You may want to browse through the rest of the files of the two cases (either online on the public web page, under closed electric cases, or in person at the IPUC) to see if you need anything else.

<<Bypass (Hazelton A) Contract.pdf>> <<Order No 32037, Case No IPC-E-89-02.pdf>> <<Order No 32181 Case No IPC-E-10-45.pdf>>
