CONDITIONS OF APPROVAL

1. Subject to all prior water rights.
2. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
3. Recreation use is for heating a pond filled initially from another water source.
4. Heating use is for melting snow and ice on driveways and walkways and for space heating in one home and one bath house. The heating use shall be non-consumptive.
5. Prior to continued diversion of water to the heated pond, mitigation or replacement water shall be provided for consumption of water due to increased evaporation from the heated pond.
6. Water used solely for heating purposes and water used for the non-consumptive component of the recreation use shall either be injected into the groundwater or discharged to a natural stream.
7. The following rights are diverted through the points of diversion described above located within the SW1/4SE1/4 of Section 27, metal ID tags #D0050559 and #D0050560: 37-8205 and 37-22128.
8. Return flow discharged to a subsurface system must be authorized by a separate injection well permit and if return flow is discharged to a surface water system shall meet Idaho Water Quality Standards.

State of Idaho
Department of Water Resources
Amendment of Permit
NO. 37-08205

CONDITIONS OF APPROVAL CONTINUED

9. This right does not grant any right-of-way or easement across the land of another.
10. Failure of the right holder to comply with any condition of approval is cause for the Director to cancel this permit pursuant to Section 42-311, Idaho Code.

This amendment of permit is issued pursuant to the provisions of Section 42-211, Idaho Code. Witness the signature of the Director, affixed at Boise, this 27th day of May, 2011.

for GARY SPACKMAN, Interim Director
