

MEMORANDUM

Date: May 25, 2011
To: Transfer 77180
From: amerritt
Re: review and approval

This transfer was processed in the region. It was advertised without protest. It is being approved out of the region as drafted. On final review it was discovered that the existing well in the SWSWSW S 29 also serves rights 43-13513 and 43-13515. Condition no. 3 was added to require a future transfer if indeed the new well is drilled and an interconnected system is developed.

Pursuant to the approval right 43-2009 is being relinquished. Additionally the rights are in the water bank and will need to be removed before use as transferred.
