Subject: Permit 29-8162: Document Research

Dear Mr. Katsilometes,

Below is the direct link to the file that contains the January 13, 2009 order that approves permit number 29-8162. This is a 761 page file but the order is within the first 19 pages.

[http://www.idwr.idaho.gov/apps/ExtSearch/DocsImages/gghm01 .pdf](http://www.idwr.idaho.gov/apps/ExtSearch/DocsImages/gghm01.pdf)

If, for whatever reason, this link doesn't work, I am going to explain below how to get to the scanned documents related to this file.

1st, to go www.idwr.idaho.gov

On the home page in a box at the bottom of the screen you will see some options. Move your mouse over "Most Visited Pages". The first subheading reads "Water Right and Adjudication Search". The direct link to this page is:

<http://www.idwr.idaho.gov/apps/ExtSearch/SearchWRAJ.asp>

From this page, to find information on Permit 29-8162, you will need to 'check' the box next to **Permits**, and enter in **Basin** number "29" and **Sequence** number "8162". Then click the Search button (see below):

☐ Search for both active and inactive water right records.

Search by:Basin

Type of Query	USAGE INSTRUCTION
☐ All Adjudication & Water Rights	
Adjudication ☐ Claims ☐ Recommendations ☐ Both	Water Rights ☐ Applications ☒ Permits ☐ Decrees, Licenses and Statutory Claims ☐ Transfers ☐ All of the above
Basin Who What When Where	Clear Search Help
Basin	29 To (Example: 63)
Sequence	8162 To (Example: 7819)
Split Suffix	(Example: A)

(Hint: Water Right Numbers are comprised of three Components: the Basin Number, the Sequence Number, and sometimes a Split Suffix. For example, in the number 63-7819A, the Basin Number is 63, the Sequence Number is 7819, and the Split Suffix is A. Not all water right numbers have a Split Suffix.)

The results will include a summary of the permit along with some other buttons on the left side of the screen. Select "Related Documents":

Information for type: Permit

	Record	Basin	Sequence	Suffix	Version	Basis	Status	Pri
Details								
Related Documents	1	29	8162				Active	199
General Provision								

Number of records = 1

This will open up a new window with links to all the scanned documents related to this file. The order is found under "Water Right Backfile".

Respectfully,

Craig L. Saxton
