RE: Water Right Permit 85-7645

Dear Permit Holder(s):

In previous correspondence I indicated there were a few outstanding items that needed to be addressed in order to license your water right as a municipal water right. The municipal designation could potentially be advantageous to the Eagle Pointe Development in a number of ways as detailed in my previous correspondence. I have attached our previous correspondence for your review. I have yet to receive any reply regarding these outstanding issues. If I do not receive the material requested in my previous correspondence within **14 days**, I will assume that you have no interest in pursuing a change in beneficial use to municipal and will proceed to license your water right permit strictly on the finding of the field exam.

If you have any questions regarding this matter, please call me at 208/287-4914.

Respectfully,

Mathew Weaver, PE
Staff Engineer
Water Allocation Bureau
