

Dear James -

I drew a simple map of Midway Water. If it needs more detail please call me. The map that was drawn up before had some wrong information on it and I know nothing of its origin. As you and I talked on the phone Lynn Griffiths - # 11 - still uses his well to water a few head of livestock.

Garth Stevenson also had a small permit or right, but he was one of the original hook-ups. He was willing to give this up in behalf of Midway, but I'm not

sure we need his permit because all of the 7 requested are trading in wells, except # 13 who used a driven sand point as a source.

Thanks James
you can reach me at -
747-3942 home
201-0282 cell

Please let me know as soon as approval is accepted, if it be possible with this information.

Thank you again -
Kent Howell
