Monica:

Thanks for the email. I initially assisted Mr. Telford with the water bank leases, but subsequently, Brian Higgs assisted him with them. However, I am Mr. Telford's attorney, and I did visit with Mr. Telford regarding this lease and the transfer. They are actually two totally unrelated matters, although they involve the same water right. There are currently a number of well issues, including a well dispute, that led to the need for the recent transfer that is set for hearing. The transfer extension you mentioned was for a completed transfer that involved another new well to be added to the same water rights, but a neighbor who initially agreed to allow a pipeline to be placed along a road has reneged, and that well will likely not go in. Because there were issues with getting water to the place of use of these water rights, the water bank lease takes corners and their associated rates/volumes and allows them to be diverted through other existing points of diversion. In short, we want you to process the water bank application. My understanding is that Mr. Telford has sent in payment (or is about to) on the other water bank lease documents that have been executed.

Let me know if you have any other questions.

Hi Rob,

I'm following up on a phone message from last week. I have this lease application, received December 16, 2009. It was followed up by a filing for Extension of Time to Complete Transfer in January 12, 2010. Do you still need me to pursue Bank processing? Thanks!
