Subject: application for permit 71-10929

Corey and Allen:

After discussing the various applications and licenses with Pat Lee and Jack Brown, I am sending this to advise you they prefer, given the circumstances, that IDWR continue to process Application for Permit 71-10929. Please let me know if you need anything additional to do so and advise me of a time frame under which they can expect to receive a final decision.

In light of the USFS correspondence, separate and additional issues may later arise with respect to whether it is prudent to file applications to appropriate irrigation water. When Pat and Jack learn more about that, I will advise you. In the meantime, I look forward to hearing from you about the status of 71-10929.

Thank you for keeping me apprised of its status. (By the way, the contact information is below is both new and accurate.)

Pat
