Ms. Campbell,

Water Rights 78-4113, 78-4314, 78-7114, and 78-4136 were divided proportionately on May 10, 2011, as per the ownership change request and documentation. When dividing a water right, the split off portion receives a new water right number. Also, any combined use restrictions are carried forward and split as well.

I did add water right 78-10110 to the notice, and removed the request for the split of water right 78-7263A. The ownership has been updated for water right 78-10110 and I've attached a copy of the water right report for you. I have requested that a refund of \$75 be mailed to Campbell Trinity C Ranch at the 3975 Campbell Rd. address.

If you have any questions, you may reach me at 208-287-4952.

Thank you,
Emalee

Emalee, please do **not** combine or change the water right numbers. Depending on how the land may someday sell, I feel they need to be kept separated. The domestic well should go under my name, for I have the house. Thank you for your assistance.

Ms. Campbell,

I am reviewing the ownership change request you submitted on May 3, 2011. The last water right listed (78-7263A) is in the permit stage and the personal property of Brundage Water Users Assn. Inc. There is another water right associated with your property (78-10110), and I have attached a copy of the partial decree for your convenience.

If you would like, I can change the water right listed from 78-7263A to 78-10110. This ownership change would not require a split as it is a domestic use right for 1 home, therefore a refund of \$75 would be mailed to Campbell Trinity C Ranch.

Please let me know how you would like to proceed.

Thank you,
Emalee
