Re: Water Right Transfer 73717

Dear Mr. Van Dyke:

It is necessary that an amendment to Transfer 73717 be submitted to IDWR. Due to the length of time since Transfer 73717 was originally submitted and the recently approved Transfer 76225 it is necessary update transfer 73717. The amendment changes include changing the proposed place of use for commercial use, excluding domestic water right 47-13651 from the application and adjusting the acres required to be dried up to supply the required volume of 44.4 afa for stock and commercial water use. A new pipeline layout map with the locations of the current irrigation and stock water wells is being provided. An amended map of the location of the 45.4 acres to be dried up under 47-8011A is also provided.

If there are any additional questions or concerns, please contact me. Our client would like to have Transfer 73717 approved in a timely manner now that additional information and an amendment to Transfer 73717 have been provided.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Greg Sullivan', is written over a horizontal line.

Greg Sullivan, M.S., E.I.T.
