RE: Change of Ownership for Water Rights 36-2722A and 36-14202

Dear Interested Party:

Thank you for your quick response to my letter April 20, 2011. The deed you submitted in response to my letter indicates that the property was conveyed as dry and without water. The deed which was previously submitted, recorded as instrument number 2111748, supports the change in water right ownership for the portion of the water rights which is appurtenant to that property.

Based on the documentation submitted thus far, it does appear that a split of the water rights will be required. To complete the change in ownership, the balance of \$150 is required to divide the water rights, or additional deed(s) which cover the remaining portions is required.

I will hold the notice another 30 days to allow you time to submit the documentation or the fees required to complete the ownership change.

Please feel free to contact the Department if you have any questions.

Sincerely,

Emalee Rushing
Office Services Supervisor
