Hi Dan,

No problems from our end. He has meters and etc.

Thank you.

Brian

Subject: Water Bank Lease

Hello Brian,

Ward Land and Livestock LLC has filed an application to lease water right 45-7733 to water bank. This will leave water right 45-13545 still being used at the property. According to the WMIS data, this should work well. He should have plenty of water under water right 45-13545, but I am not monitoring his water use. I will leave that discussion up to you. Please let me know if you have any concerns about this water bank lease. This is just to place it in the water bank and make it available for rental. No rental have been proposed on this water right.

If you could send me your comments as soon as possible, I would appreciate it.

Subject: Ward Land and Livestock LLC Water Bank Lease

Hello Gary,

I received all of the documents for the Ward Land and Livestock water bank lease, and just about everything seems to be in order. I have run into one problem. Dan Ward is not listed on the Secretary of State's Business Webpage as a member or representative of Ward Land and Livestock LLC. Therefore, I will need some legal documentation that shows that Dan Ward can sign for Ward Land and Livestock.

Everything else is ready to go. I have the memo written and a comment request into the watermaster, so I am just about ready to hand it over to the folks that place this water right into the water bank. I should have everything ready by the time I receive the Authority to Sign Documentation.

Thank you Gary,

Daniel A. Nelson
