RE: Water Right Permit No. 37-07891/01-7086

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

\_\_\_\_\_ **Point(s) of Diversion**

  X   **Place(s) of Use.** The permit put the place of use in the SWSW of section 27. The examiner found the power house located in NWNW of section 34. (See attached aerial photo)

\_\_\_\_\_ **Other**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

If you have any questions, please call me at 208-287-4946.

Sincerely,

A handwritten signature in black ink, appearing to read 'Michele Edl', is written over a horizontal line.

Michele Edl  
Associate Engineer
