NOTES:

All lots or parcels with given bearings and distances were calculated by traverse closure. All other parcels were calculated by the most accurate means possible with the given information (i.e. length multiplied by width, triangulation, planimeter, scaling from existing map, and coordinate geometry). Areas shown are not necessarily right-of-way, where applicable, has been removed. Arc lengths less than 50' may not be shown due to space limitations. Distances shown in parentheses are the record distances.

The scale of bearing for the construction of this assessment map is:
 the plot of Twin Lakes Village recorded in Blk E, Pg 151 of plat.

NOTES:

All lots or parcels with given bearings and distances were calculated by traverse closure. All other parcels were calculated by the most accurate means possible with the given information (i.e. length multiplied by width, triangulation, planimeter, scaling from existing map, and coordinate geometry). Acreages shown are not disseminated, right-of-way, where applicable, line removed. Distances and acreages less than 20' may not be shown due to space limitations. Dimensions in parentheses denote record only or platted lot line dimensions.
