Subject: RE: Amended Permit Application 63-33074

Lori:

I discussed it with the regional manager. The determination was:

- 1) Yes, do need to advertise the amendment.
- 2) Could expedite the amendment if the applicant provides letters of support from closest neighboring water right owners: Stewart, 63-18542, NWNW S.2; Miller, 63-18115, SWNW S.2. Letters should state they do not have concerns about drilling a new irrigation well in SENE S.3 to help irrigate 446 acres identified in permit 63-33074.

Without support letters, regular processing will run its course. In that case, advertising would probably be around late fall.

Please let me know if you need more information.

Steve

Subject: Amended Permit Application 63-33074

Steve,

We submitted an amendment to permit 63-33074 July 9, 2010. The amendment proposed an additional well location in the SENE, Section 3, T1N, R1E. The permit currently authorizes the NENE and NESE as possible drilling locations. Will the amendment require advertising? The reason I'm asking is that the applicant has a driller with time on his hands right now. Thanks Steve.
