11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. Applicant seeks a non-consumptive storage water right using existing irrigation water rights 37-577CG and 37-657E. Companion water right transfer application converts a portion of each said water right for uses listed on this permit application. Applicant seeks to irrigate under said water rights using storage sought under this permit. Permit application seeks diversion to storage only during the irrigation season and to store water year round in the lined pond system. Applicant agrees to mitigate for a one time, first fill of pond system by not irrigating 3.0 acres during the first irrigation season following permit approval, see attached narrative in support of one time first fill mitigation.
12. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.
