Re: Idaho Water Transfer of 43-4112 and 43-2325

Dear Mr. Merritt:

Idaho Water Company desires to transfer ground water rights 43-4112 and 43-2325 to property owned by Ken Woodworth. The property is also known as the Cleft in the Rock Farms. The well that 43-4112 and 43-2325 will be transferring to is located outside of the Raft River Critical Ground Water area at SWSWSW Section 29 Township 10 South Range 28 East. The proposed new well is located outside of the Raft River Critical Ground Water area at SESWSW Section 29 Township 10 South Range 28 East.

Water rights 43-4112 and 43-2325 are combined with 43-2009 which is a surface water right from Raft River and located within the Raft River Critical Ground Water area. Water right 43-2009 has not been a reliable source of irrigation water for many years and water rights 43-4112 and 43-2325 have been utilized as primary ground water for the current place of use. Water right 43-2009 will be relinquished to The State of Idaho. Water right 43-4112, 43-2325 and 43-2009 are currently leased to the Idaho Water Supply Bank.

The beneficial use and period of use of the water rights will not be changing. After the transfer is approved, the ownership of water rights 43-4112 and 43-2325 will be changed to Cleft in the Rock Farms.

Please copy our office on all correspondence regarding this application.

Sincerely,

Greg Sullivan, M.S., E.I.T.

Cc: Del Kohtz, Ken Woodworth
