

MEMORANDUM

Date: April 01, 2011
To: Water Right File 32-7242
From: cpadilla
Re: Licensing Memo

The application for permit indicated that there would be 159 cattle and 1200 sheep. I will figure the volume for this license based on those numbers as follows:

159 range cattle (out of stream diversion) = 2.1 afa
1200 sheep x 2 gpd/sheep = 2.7 afa

Total volume=(4.8 afa/365) x 138 days = 1.8 af

*These figures are derived from standards found in the field examiners handbook.

2/28/2011 Note that the FE shows this right as being in the Boise National Forest. I spoke w/ an individual from that office and he informed me that this is located in the Caribou/Targhee National Forest and correspondence should go to the ID Falls office.
