RE: MAGIC VALLEY GROUND WATER DISTRICT WATER BANK

Dear Member,

In the past you have placed some acres of your farm in the Magic Valley Ground Water District (MVG) Water Bank. The purpose of placing acres in this bank was to help off-set mitigation acres and stop the forfeiture clock on those acres.

Due to the recent purchase of the Pristine Springs, MVG no longer has a need for mitigation. By law the MVG Water Bank is dissolved. The forfeiture clock can only be stopped by the ground water district if the acres are set-aside for a mitigation plan. In order to stop the forfeiture clock you must enroll your acres in the IDWR Water Bank or irrigate the acres once every five years. The phone number to the IDWR is 208-287-4800 or the web address is;

The attached sheet describes the acres you have had in the MVG Water Bank. Please be aware that the acres listed on the attached sheet are no longer saved from forfeiture.

I apologize for the inconvenience. Please call if you have any questions.

Sincerely,
