Jeanie-

On transfer 75850, the combined total acre limit on page one needs to be changed from 171.5 to 171.2 to agree with the individual water right acre limits.

On the same transfer, on page 9, water right 37-71B, the individual acreage limit outlined in condition number 1 needs to be changed from 36.8 acres (incorrect) to 37.2 acres to agree with the individual acre limit for that right as printed on page 1 and to agree with the 40 – 2.8 acres dried up per our application = 37.2 acre remaining. Let me know if you have questions, thanks-

Zach Latham
