PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 79-14227

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. During my review of your proof and water right permit, I found that condition no. 3 of this permit may not have been complied with.

Condition no. 3 of this permit states:

"Prior to diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish & Game at the point of diversion from Johns Creek and the point of return flow to Johns Creek. The screens at both locations shall have a maximum mesh size of 0.25 inch."

If this condition has not been met, I recommend this condition be complied with immediately and prior to the field examination. Enclosed is a copy of this permit for your information. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov

If you have any questions concerning the field examination, please contact the Western Regional Office of the department in Boise, Idaho 208-334-2190.

Sincerely,

Darla Block
Technical Records Specialist
