Re: RJ, LLC  
Water Supply Bank  
Application to Lease a Water Right: 36-7934

Dear Monica,

Richard Young, authorized representative for RJ, LLC, would like to lease a portion of water right 36-7934, to the Water Supply Bank (WSB) as of this January 1, 2011. This letter and application are following the 4 Requests to Release Water from the Water Supply Bank for water rights 36-2449, 36-7835, 36-7523 and 36-7934 from Mr. Young, this same date.

Water Right 36-7934 is for 2.68 cfs with a total allowable acreage of 134.0. Since August 5, 2008, 16.2 acres of this water right have been in the WSB, with the remaining 117.8 acres annually under seasonal irrigation, in the POU for this farm.

Now with this water being released from the WSB, the full 134.0 acres are back with the water right. We would like to put 104.1 acres of water right 36-7934's 134.0 acres back into the WSB, drying the pivot corners as shown in the map included.

Please get back with either myself or Erick Powell if you have any questions regarding these release forms. Your time is appreciated.

Sincerely,

Ann Pool  
Hydrologic Technician
