Re: Transfer 77119- Water right 33-2051B, 33-7026 and 33-7013

Dear Don,

While processing the above referenced transfer, it became apparent that some changes needed to be made to the application. Since the place of use (POU) in Section 21 consists of two water rights and the POU in Section 28 consists of one water right, the application was actually doing two transfers in a single transfer. In order to accomplish what you would like and not have two pay for two separate transfers, the water rights will need to be combined into a permissible place of use (PPU). Everything on the water rights will remain the same except adding the POD in Section 21 and creating the PPU.

Please review the application and map. Please sign and date the application and return it to the office. If you have any questions, don't hesitate to call me.

Sincerely,

Denise Kidman
Water Resource Agent
