Emalee Rushing

322 E. Front St.

Boise, ID83720-0098

In November of 2000, a water right was decreed to Curtis, Green, Kratz, and Chambers that authorized irrigation of about 26 acres of ground that we all owned together.

In November of 2003, a change of ownership for was submitted to IDWR that split a portion (about 4 acres) off of the original right into the Curtis name. Green, Kratz, and Chambers signed a warranty deed giving up their interest in the 4 acres to Curtis. I am now indicating that Curtis has given up our interest in the remaining 22 acres.

We are no longer an owner or part owner of any of the remaining 22 acres, and we want to get our name off of the water right. We have no interest in water right 72-16774.

Thank you for your assistance in this matter.
