Water Right Report 36-16889

Remarks:

Comments:

1. mvanbussum 6/4/2007 POD

Comment: 1977 field exam mentions only one point of diversion but that water is diverted from upper and lower springs. Two were claimed. License mentions sources are Turkcer Springs and unnamed springs. Recommended as claimed.

2. mvanbussum 6/4/2007 POD

Comment: It was difficult to determine PODs from available imagery and topo map. Recommended PODs generated from examination of topo and imagery; appears to be where springs in next QQ would run into ditch. PODs may actually be in NESE.

3. mvanbussum 6/4/2007 POU

Comment: POU based on phone conversation with claimant Kenny Crist on June 4. Mr. Crist said there are 3 ponds 100 feet by 200 feet under the trees to the west of the pivot.

4. mvanbussum 6/4/2007 Use

Comment: Per phone conversation with claimant Kenny Crist 6/4/2007, there are sturgeon, bluegill, bass and trout in pond and the excess flow goes into the river.
