It is my intent to lease this water right to the Department of Water Resources indefinitely.

RE: Sewer Billing Account 186820-01 for the Property Located at 516 S. 8th Street

Dear Idaho Linen Supply:

During the annual update for your sewer billing account the usage has been calculated at 828 hundred cubic feet per month average usage. This rate is calculated using the readings from your well and averaging on a monthly basis. This will significantly raise the July sewer billing over the previous year's billings. The current monthly *sewer* portion of your billing amount on your sewer and trash bill will raise from \$613.01 per month to \$2,382.98 per month as of July, 2003.

It appears that this account has been underbilled for a number of years; however there will be no back billing for this account. I regret an inconvenience this may cause you. If you have further questions or I may be of assistance please contact me at 384-3931.

Sincerely,

Beverly A. Dugger
