STATE OF IDAHO
DEPARTMENT OF WATER RESOURCESIdent. No. 05-23417

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

WATER RESOURCES

WESTERN REGION

1. Name of applicant(s) Matt and Jennifer Hurlbutt Phone 208-315-0528
Name connector (check one): ☐ and ☐ or ☒ and/orMailing address: PO Box 148 City McCallState ID Zip 83638 Email: jenn@salmonriverbrewery.com2. Source of water supply Spring & Unnamed Stream which is a tributary of Boulder Creek

3. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
17N	04E	8		SE	SE	NW	Valley	Spring	
17N	04E	8			SE	NW	Valley	Unnamed Stream	
17N	04E	8			SE	NW	Valley	Unnamed Stream	

4. Water will be used for the following purposes:

Amount 0.04 cfs for Domestic purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)Amount 0.02 cfs for Stockwater purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)Amount 0.06 cfs for Power purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)Amount 0.10 cfs for Fire Protection purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)5. Total quantity to be appropriated is (a) 0.10 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. unknown, we plan on piping all water to home from all the locations aboveb. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet; total reservoir capacity N/A acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11.For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ Noc. Proposed well diameter is N/A inches; proposed depth of well is N/A feet.d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No N/Ae. If well is already drilled, when? N/A; drilling firm _____
Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. 2000 kw/monthb. Stockwatering; list number and kind of livestock. 2 horses, 2 goats, 4 cows, 2 pigs, 10 chickens

c. Municipal; show name of municipality or the applicant's qualifications as a municipal provider. _____

d. Domestic; show number of households 1 home

e. Other; describe fully. _____

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
17N	04E	8								D									
17N	04E	8								S									
17N	04E	8								P									
17N	04E	8								FP									

Total number of acres to be irrigated: N/A

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? No - this water is not to be used for any irrigation purposes. We will have a small garden - but will not require irrigation.

10. a. Who owns the property at the point of diversion? Applicant
- b. Who owns the land to be irrigated or place of use? Applicant
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: N/A

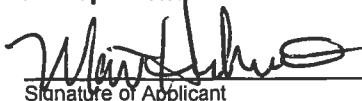

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. We need this water to power a small cabin site someday. As well as private water for our small family.

we hope to have a micro-hydro system some day. Size of system is unknown. However we would not exceed .06 CFS and all diverted water would be returned to the stream after it runs through the micro-hydro system.

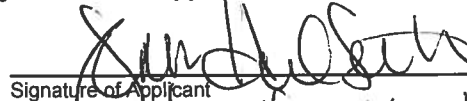

12. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

RE: Application for Permit: 65-23417

Dear Watermaster:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Buffington
Administrative Assistant

Re: Application for Permit 65-23417

Dear Applicant:

This office received your application seeking a water right referenced above. Upon review, there are areas of the application that require clarification and/or completion. Please submit an amended application and additional information to allow for further processing. I have drafted and enclosed an amended application for you use/reference. Please submit additional information to address the items listed below.

Please amend the application to address the following:

- Item No. 2 source of water supply. The application lists two possible sources, one spring and one creek. Typically, an application can only propose diversion from one source unless the diversion works will connect the multiple sources of water into a common system. In other words, if water diverted from the creek will be piped through the same system as the spring water it is ok to list multiple sources on an application. I have drafted an amended application under the assumption the sources of water will be diverted through the same system. If this is not the case, you will need to submit two separate applications or possibly three separate applications if the two proposed diversion points from the creek are from two different creeks.
- Item No. 3 location of point(s) of diversion (POD). Based on the map submitted with the application, it appears you intend to divert water from two locations on a creek(s) and one point from a spring. All three possible diversions must be listed as separate PODs on the application. The amended application lists all three possible descriptions of the proposed PODs. Also, spring PODs must be described to within the 10 acre-tract, i.e. quarter quarter quarter description. I have done this on the amended application based on the map submitted.
- Item No. 4 descriptions of the proposed use(s) includes 0.10 cfs for domestic use, 0.02 for stockwater, and 0.01 cfs for fire protection, with a total proposed diversion rate of 0.13 cfs. 0.02 to 0.04 cfs is an allowable rate for domestic use including stockwater for one home. It appears you included an additional increment of flow for a power use described elsewhere on the application. This should be listed as a separate use with its own rate of flow. I have drafted the amended application accordingly. A recorded water right for fire protection in this case does not need to be additive considering water would only be diverted for this use in case of a fire during which time you would not likely be using the water for any other use. I propose you amend

the application as drafted with a total diversion rate of 0.10 cfs, because this adequately describes the water uses you propose. If 0.06 cfs is not the rate needed for the proposed power use, please amend the application as necessary. If the diversion rate is limited to 0.04 cfs for the domestic, stockwater, and fire protection uses and the power use is non-consumptive (the water diverted for power is fully returned to the creek) you will be able to avoid a more complicated water right process for applications in excess of this amount of water due to shortages in this area. If you do not wish to amend the application as described above, you will be required to show that water is available for the proposed uses in excess of the domestic use.

- Item No. 6 description of proposed diversion works. As mentioned above, in order to have a water right with multiple sources of water the sources of water must be connected through a common diversion system. Please elaborate on the description you provided to explain how you propose to construct a common diversion system or if the system will not be connected. Also indicate whether the water diverted for the power use will be fully returned to the source. If you do not propose a common diversion system for the different sources, you will be required to submit a water right application for each source.
- Item No. 8 description of the place of use. It appears the quarter quarter description was transposed in filing out the table per the map provided with the application. The place of use is the SE NW not the NW SE of Section 8 T17N R4E. I have corrected this in the amended application I drafted. I also included a description of the power use place of use.

Please submit additional information to address the following:

- Please provide additional information regarding how the diversion rate proposed for the power use was derived.

Please submit an amended application along with the additional information requested to allow for further processing of this application. Your response, or a request for more time to make your response, must be received within 30 days from the date of this mailing. The application will be voided without a timely written reply.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Angela M. Grimm, P.G.
Water Resource Agent, Sr.

Amount 0.10 cfs for Fire Protection purposes from 01/01 to 12/31 (both dates inclusive)
 (cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) 0.10 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. _____

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11.

For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No

e. If well is already drilled, when? _____; drilling firm _____;
 Well was drilled for (well owner) _____; Drilling Permit No. _____.

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. 2000 kw/month

b. Stockwatering; list number and kind of livestock. 2 horses, 2 goats, 4 cows, 2 pigs, 10 chickens

c. Municipal; show name of municipality or the applicant's qualifications as a municipal provider. _____

d. Domestic; show number of households 1 home

e. Other; describe fully. _____

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
17N	04E	8								D									
17N	04E	8								S									
17N	04E	8								P									
17N	04E	8								FP									

Total number of acres to be irrigated: N/A

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? No - this water is not to be used for any irrigation purposes. We will have a small garden - but will not require irrigation.
10. a. Who owns the property at the point of diversion? Applicant
- b. Who owns the land to be irrigated or place of use? Applicant
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: N/A
11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. We need this water to power a small cabin site someday. As well as private water for our small family.
12. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.
